Professor of Obstetrics and the Disease of Women and Children.

W. K. BOWLING, M.D.,
*Professor of the Institutes and Practice of Medicine, and Dean
of the Faculty.*

WILLIAM T. BRIGGS, M.D.,
Adjunct Professor and Demonstrator of Anatomy.

T. B. BUCHANAN, M.D.,
Prosecutor to the Chairs of Anatomy, and Curator of the Museum.

H. KROESCHELL, Janitor,
And Assistant to the Professor of Chemistry.

Medical Department of the University of Nashville.

THE Trustees and Medical Faculty of the University of Nashville take great pleasure in announcing to its friends and alumni its continued prosperity. Its ninth and last session closed with the largest class ever assembled within its halls, being, indeed, the largest by far, ever attracted by any Medical College in the South or West.

Profoundly impressed with the great kindness and patronage of their brethren throughout the slaveholding States, and the general good will of the entire profession of the United States, the Faculty are stimulated to renewed exertions to make the Institution, in all of its appointments, deserving of this warm and persisting support.

ANNOUNCEMENT OF THE SESSION OF 1860-61.

MEDICINE is taught in this Institution NINE months annually. There will be two sessions, but only one public commencement, as they count for one Course. A Summer Session, commencing the first Monday of each April, continues four months, and is especially devoted to Clinical Instruction, Practical Demonstration, and daily Examinations. The regular Winter Session opens the First Monday of each November, and Commencement is held early in March following. Students may, however, be examined for the degree in July.

A Preliminary Course of Lectures, free to all Students, will be given by the Professors, commencing on the first Monday of October, and at the same time the Anatomical Rooms will be opened for Students, under the supervision of the professor of Anatomy. The ticket for Practical Anatomy is obligatory one session.

The TENNESSEE STATE HOSPITAL, under the direction of the Faculty, is open to the Class, free of charge; and a Clinique has been established in connection with the University, at which, operations are performed, and cases prescribed for and lectured upon in the presence of the Class. The Hospital

continues under management of the Sisters of Charity, and is in every respect a First Class one.

The candidate for the degree of *Doctor of Medicine* must have attained the age of twenty-one years, and have been engaged in the study of Medicine three years. He must have attended two full Courses of Lectures in a regular and accredited School of Medicine, the last of which in this Institution. He must write an acceptable Thesis, and deposit it with the Dean on or before the first day of February, on some Medical subject of his own selection. He must, at the time of receiving the degree, acknowledge the right of the Faculty to revoke it, should he engage in irregular or unprofessional practices.

F E E S . *

The Fees for a full Course of Lectures amount to	- - - - -	\$105 00
Matriculation Fee, (paid only once,)	- - - - -	5 00
Practical Anatomy, (obligatory one session, in any accredited Med. Col.,)	10 00	
Graduation Fee,	- - - - -	25 00

Good board can be procured at \$3 to \$4 per week. Further information can be obtained by addressing

W. K. BOWLING, M.D.,
Dean of the Faculty.

* The fees are the same, regardless of the time the student is in actual attendance upon the lectures. The opportunity is afforded him of attending nine months if he chooses, but if he prefer five, or four months, the fees are the same.

If he matriculate in April the sum of \$50 is required of him in advance, and when he enters again in November, upon the winter course, he must pay \$55 more, making in the aggregate the fee of \$105 for the course. If he matriculate in November he pays at once the entire fee of \$105. The American Medical Association has, from the beginning of its existence up to the termination of its last session, insisted upon the necessity of longer college study for medical students, and this Institution has not only come up to the requirements of the Association, but even gone beyond them.

A Parchment Certificate of honor is given before every regular Commencement, to each student who attended the Summer Course the preceding year.

The next Summer Course will commence in this Institution on the first Monday in April, 1860, and conclude on the last day of July following. Lectures and Examinations daily by the Faculty.

The following explanations may prevent misconceptions :

1st. The Summer Course counts nothing towards a degree, *as a Course*.

2nd. It is but a fraction of the Collegiate Course of nine months in each Collegiate year.

3rd. It is obligatory upon no one. It offers prolonged advantages to the student, of which he may avail himself or not, at his option.

4th. We divide the college year into three courses : 1st. The Spring and Summer Course of four months, embracing April, May, June and July. 2d. The Preliminary Course to the Winter Session, embracing the month of October. 3d. The Winter Course, embracing the months of November, December, January and February. The fee is the same for the three courses as that for the Winter Session of four months alone.
